

GGGCAGTTAG

The image shows a DNA double helix structure. The backbone is represented by two yellow lines. The base pairs are colored: Adenine (A) is green, Thymine (T) is red, Cytosine (C) is blue, and Guanine (G) is orange. The bases are connected by hydrogen bonds, represented by thin lines. The sequence of the top strand is GGGCAGTTAG, and the bottom strand is CCAATGCTTC.
